

**EUROPEAN TIMBER REGULATION EU No 995/2010 (EUTR)
THE TIMBER AND TIMBER PRODUCTS (PLACING ON THE MARKET) REGULATIONS 2013 (UKTR)**

Sylvamo is fully committed to sustainable forest management and responsible fibre procurement practices in all of its operations. All our wood procurement activities comply with the requirements of the EUTR and the UKTR aimed at reducing/eliminating the trade in illegally logged timber.

Our fibre procurement system and pulp, paper and board manufacturing are certified to the ISO 14001 standard as well as to the FSC® Controlled Wood, FSC® and where applicable PEFC chain of custody standards.

Both the PEFC and the FSC® systems are aligned with the EUTR and the UKTR. These third-party certified standards in addition to our own internal security systems help to minimise the risk of illegally logged fibre entering our supply chain.

Our third-party certificates are available on our website: <https://www.sylvamo.com/us/en/sustainable-forests/certifications>

ORIGIN OF WOOD

WOOD SPECIES USED

SAILLAT France	100% France	<p>Maple (Acer campestre L; Acer platanoides; Acer pseudoplatanus), Alder (Alnus glutinosa), Birch (Betula pendula), Hornbeam (Carpinus betulus L), Chestnut (Castanea sativa Mill., Castanea spp.), Beech (Fagus sylvatica L), Plane (Platanus hispanica), Aspen (Populus alba L.; Populus tremula), Wild Cherry (Prunus avium), Oak (Quercus ilex; Quercus petraea; Quercus pubescens; Quercus pyrenaica Willd.; Quercus robur; Quercus rubra), Black Locust (Robinia pseudoacacia L)</p> <p>Fir (Abies alba; Abies grandis; Abies nordmanniana), Larch (Larix decidua; Larix eurolepis A.Henry; Larix kaempferi), Spruce (Picea abies (L.) H. Karst.; Picea sitchensis), Pine (Pinus nigra; Pinus nigra Arnold; Pinus pinaster; Pinus strobus; Pinus sylvestris), Pseudotsuga menziesii); Hemlock (Tsuga heterophylla)</p>
